

Apparo Bottle Management

Apparo bottle management inserts keep the bottles in your bar fridge straight and tidy and allow re-stocking at the rear of the row, ensuring your customer receives a cold beverage and your stock is rotated correctly.

Different fridge stock for different day parts? Apparo bottle management inserts allow the exchange stock with ease and without compromising your stock rotation.

Available in four widths - 64mm, 70mm, 86mm, and 106mm
